EDUCATION:

- **Master of Computer Application(MCA),**
Shri Guru Ram Rai University, Dehradun | July 2022 – July 2024
DIVISION: Distinction (8.13/10)
- **Bachelor's of Computer Application(MCA),**
Shri Guru Ram Rai University, Dehradun | July 2019 – July 2022
DIVISION: Distinction (7.8/10)

TECHNICAL SKILLS:

- **Languages:** JavaScript, Python , Java
- **Technologies:** HTML, CSS, JS, SQL, JQuery, Express JS
- **Tools:** Git, GitHub, Visual studio

PROJECTS:

[\[Link\]](#) Responsive Restaurant Web Page

Tech Stack: HTML, CSS, JS, Bootstrap, JQuery

- Implemented a restaurant website page where users can choose different menu items and also get the location of the restaurant
- Designed an attractive and user-friendly interface incorporating modern design principles and Bootstrap components, enhancing the visual appeal and usability of the website.
- Implemented interactive features such as navigation menus, image carousels, and contact forms using jQuery, enhancing user engagement and functionality.

[\[Link\]](#) Piano Website

Tech Stack: HTML, CSS, JS

- This is a realistic working virtual Piano Website.
- Its design is inspired by a real life Product Lumi Keys by Roli.
- Integrated Tone.js library for generating and controlling audio playback.
- Enabled polyphonic playback, allowing users to play multiple notes simultaneously for experimenting with harmonies and complex compositions.

[\[Link\]](#) Simon Game

Tech Stack: HTML, CSS, JS, Bootstrap

- Developed a fully functional Simon game website using a combination of JavaScript, HTML, CSS, and jQuery.
- Implemented game logic to generate random sequences and validate player input according to the classic Simon pattern memory game rules.
- Designed an intuitive user interface utilizing CSS for styling and jQuery for dynamic content updates, resulting in an engaging and seamless gameplay experience
